BATES—WEST PARIS

Walter E. Cole Dead—Baccalaureate Services.

The community was surprised at the sudden death of Walter Elvin Cole, Saturday night. Although he had been in very poor health since last December, he had seemed to be gaining for the past six or seven weeks and been able to plant some of his garden. Saturday, about 5 p. m. after resting a while, he went out into the garden to look around and there was found after a few minutes' absence, where he had dropped. Mr. Cole was one of three children born to Mr. and Mrs. James Cole, in Woodstock, Jan. 15, 1868. He married Rose Winona Ray, Nathan Noble and party will be tendered an Italian dinner before the parade.

Norway has been invited to provide floats and help along the "Boost Maine" campaign.

The veteran fiddler and Nate were in Lewiston the first of the week for a rehearsal with the class. A rousing request was in order and Mellie was taken away off feet by youthful enthusiasm. A group picture was taken at City Hall with Mellie and Nate in the foreground. This photo is on display at the Norway Bank Co. Mr. Cole will be presented to Mellie as a souvenir.

Lesson for June 13

JOSEPH'S FIDELITY

LESSON TEXT—Genesis 39:1-23.
GOLDEN TEXT—Seest thou a man diligent in his business: he shall stand before Kings.—Prov. 22:28.
PRIMARY TOPIC—A Noble Slave.
BOY TOPIC—How Joseph Became a Slave.
INTERMEDIATE AND SENIOR TOPIC—Passing Sorrow.
YOUNG PEOPLE AND ADULT TOPIC—Triumphing Over Trials.

I. Joseph, the Well Beloved Son (39:1-23).
He was Jacob's favorite son, partly due to the fact that he was the son of the wife of his first love and the son of his old age, but mainly because of the superior qualities he possessed.

II. Joseph's Fidelity as a Son (39:1-17).
Joseph's brethren had gone to Shechem, some fifty miles from Hebron, where there was plenty of pasture for their flocks. After a time Jacob became anxious as to their welfare and dispatched Joseph, now about seventeen years old, for the purpose of finding out their condition. He did not allow the envious hatred of his brethren to deter him from his duty, but willingly responded. "Here am I!" He no doubt realized that his mission was fraught with great peril—exposure to wild beasts, robbers, and the envious hatred of his brethren. His fidelity is shown in two ways.

1. The fact that his father sent him on such a long and dangerous journey to bring back word concerning his brethren shows that he had proved himself to be a trustworthy character.
2. His brave and glad response to his father's request. He responded to his father's confidence.

III. Joseph's Fidelity as a Slave (39:18-23).

At the sight of Joseph, the murdered son of his father, the steward was struck. They first proposed to kill him in order to prevent his dreams coming true. Finally, the prudent suggestion of Judah to sell him to the Midianites prevailed and he was carried to Egypt and sold to Potiphar as a slave.

2. His prosperity while a slave in Potiphar's house (39:24-26).

The secret of Joseph's prosperity was that the Lord was with him (v. 2).

This prosperity consisted:

(1) Of being accorded the privilege of Potiphar's house, i. e., his private residence instead of his fields or public buildings.

(2) He became Potiphar's personal attendant (v. 4). Observing Joseph's fidelity Potiphar chose him to give attention to his personal affairs.

(3) He was made overseer over Potiphar's house (v. 4). As a personal attendant he proved himself to be so capable that he was made administrator over his estate including his household. He no doubt purchased all supplies and had charge of the servants.

(4) He brought prosperity to Potiphar (v. 5).

The Lord blessed Potiphar for Joseph's sake.

(5) He possessed an attractive personality (v. 6). His fine physique and commanding personality were gifts from God. All our gifts should be consecrated to the Lord who gave them.

3. His temptation (vv. 7-17).

His very attractive person became his peril. Potiphar's wife became infatuated with this handsome slave, and attempted to induce him to commit adultery with her. He resisted this temptation because yielding would have been to sin against his master and his God. The man who is faithful to God will be faithful to his fellowmen.

IV. Joseph's Fidelity as a Prisoner (vv. 18-23).

Being defeated in her wicked purpose, Potiphar's wife accused Joseph falsely. Because of her charge he was thrust into prison. Potiphar must not have really believed his wife or else he would have put Joseph to death. He did to him the least that was possible under the circumstances. Because of his purity and unflinching loyalty to God and man, God was with him even in the prison.

1. The Lord gave him favor in the sight of the keeper of the prison (v. 21). This keeper was none other than Potiphar himself (40:3, cf. 39:1).

2. He was given charge of the prisoners (v. 22).

Potiphar knew Joseph's ability and faithfulness, therefore gave him employment in this new place.

3. The Lord made him prosperous (v. 23).

Joseph's success was due to the hand of his God upon him.

Ordinary Duties of Life

Do You Drive a Car?

Eyestrain may very easily be aggravated by driving a car. The attempt to focus the eyes on objects which you are passing rapidly irritates the already strained eyes.

Don't give up the car—but have your eyes attended to.

Begin by letting us examine them to find out what causes the strain. Good sight is too valuable for your success and comfort to run the slightest risk of impairing it.

Our equipment, together with our skill and experience, enables us to determine exactly the condition and needs of your eyes.

GUM-DIPPING

the Extra Process for Extra Miles! Breaks all Tire Records

The 500 Mile Speed Classic at Indianapolis has always been a Battle of Tires. In 1911, Firestone won with fabric tires at 74.59 miles per hour. In 1920, Firestone won with cord tires at 88.55 miles per hour. In 1925, Firestone won with Full-Size Gum-Dipped Balloons at the record breaking average speed of 101.13 miles per hour.

In 1926, Firestone again won with Full-Size Gum-Dipped Balloons. The ten cars which "in the money" were all Firestone-equipped. They went the distance without a single blowout and with but two tire failures—one due to a puncture and the other to a leaky valve.

This performance is even more remarkable when you consider the terrific speeds at which the cars traveled over this fifteen-year-old, rough brick track.

Experienced race drivers will not risk their lives or chances of victory on any other tires. And in the commercial field, large trucks, motorbuses and taxicab fleet operators, who keep careful cost records, are among the big users of Firestone Gum-Dipped Tires.

The City Transportation Co., of Tacoma, Wash., writes: "One of our 12 buses on Firestone Gum-Dipped Tires has gone over 49,600 miles and still looks good for many miles of extra service. For all around fire safety and mileage, Firestone cannot be beat."

From Calumet Motor Coach Co., Hammond, Ind., the following: "We operate 40 buses all equipped with Gum-Dipped Tires. The very low cost per mile on which these tires operate is considerably less than that of any other make." Hayes Bus Lines, Columbia, S. C., says: "We operate 19 buses equipped with Firestone Gum-Dipped Tires. A number of these tires have run over 45,000 miles without ever having been removed from the rims."

The largest taxicab companies in the world standardize on Firestone Gum-Dipped Tires. W. R. Rothwell, taxicab operator, Detroit, Mich., writes: "Two of my Firestone Gum-Dipped Tires have run 76,000 miles."

Hundreds of thousands of car owners voluntarily testify to the safety, comfort and economy of Full-Size Gum-Dipped Balloons. W. H. Peacock, Birmingham, Ala., testifies: "I have had Firestone Balloons for thirteen months and they have delivered in that time 24,469 miles." H. C. Staehle, Minneapolis, Minn., says: "My Firestone Balloons have gone 49,900 miles and are still in good condition."

These records of endurance, speed, safety and mileage could only have been made because of Firestone development of the Gum Dipping process which insulates and saturates every fiber of every cord with rubber, reducing friction and heat and building greater strength and endurance in the cord—assuring you at all times—

SIX TRADITIONAL NEW ENGLAND DISHES

(Ed. Note: This is one of a special series of articles contributed by 6 famous cooks. Their recipes are "different." Cut them out and paste them in your cook book.)

Probably no section of the country is as famous for its traditional dishes as New England. The eating of beans and brown bread has become almost a rite in many of those old homes.

Miss Lucy G. Allen, head of the well-known Boston School of Cookery, has spent all her life in New England. She has taught hundreds of women cooking in her classes, and has written many cook books, among them "Choice Dishes for Clever Cooks," and "Table Service."

She has contributed to this unusual cooking series recipes for six typically New England dishes.

Boston Baked Beans
It's the preparation and the slow cooking which makes Boston Baked Beans superior to all others.

Pick over one quart of pea or kidney beans, cover with cold water and soak over night. In the morning, drain, cover with fresh water and simmer until the skins begin to break. Drain again. Wash and score a three-inch cube of fat salt pork, cut the butter side up, and enwrap beanpot. Bury the pork in the beans, leaving the sides exposed.

Mix one tablespoon of salt, one tablespoon of molasses, three tablespoons of coffee and one-half teaspoon of dry mustard; add these seasonings to one cup of boiling water and pour over the beans. Then add enough boiling water to cover the beans. Cover the beanpot, put in hot oven and bake six or eight hours, uncovering the last hour of cooking.

And Chowder
A hearty dish, liked especially by men, is fish chowder. It's economical too. Buy a four pound haddock, skinned with the head left on. Remove the fish from the backbone, cut into inch thick slices and put aside. Put the backbone broken in pieces and the head into a stewpan, add two cups of cold water, bring slowly to the boiling point and cook twenty minutes. Put chowder kettle on an inch and a half cube of fat salt pork cut into small bits, and fry out.

Add one sliced onion and fry for ten minutes. Add three or four medium sized potatoes cut in thin slices. Strain the stock from the fish bones over the potatoes and cook until they are soft.

Add the fish and simmer ten minutes. Then add one quart of milk, one tablespoon of salt, one-eighth teaspoon of pepper, and the potatoes. Cook until the potatoes are soft. Add one cup of butter and either three or four pieces of pilot bread, or one or two slices of corn bread. The chowder is now ready to serve. The fish chowder can, simmer or stand before serving the better it will be.

Codfish Balls
Wash one-half pound of salt cod-fish and cut into small pieces using a kitchen scissors. Add three or four medium sized potatoes cut in thin slices. Strain the stock from the fish bones over the potatoes and cook until they are soft.

Add the fish and simmer ten minutes. Then add one quart of milk, one tablespoon of salt, one-eighth teaspoon of pepper, and the potatoes. Cook until the potatoes are soft. Add one cup of butter and either three or four pieces of pilot bread, or one or two slices of corn bread. The chowder is now ready to serve. The fish chowder can, simmer or stand before serving the better it will be.

Pumpkin Pie
Pumpkin pie when made right is a real delicacy. And this recipe for it is especially good. For a more elaborate dish it may be served with whipped cream.

For the filling measure two cups of flour unsifted and sift with one-half teaspoon of salt. Cut in, using two knives, three-eighths cup of lard. Add three-fourths cup of white sugar, slightly beaten and two cups of milk or if it is liked rich, use part cream.

Nice Brown Doughnuts
Try trying your milk doughnuts according to this good New England recipe of Miss Allen. The result will be a most attractive place to all members of the family when they smell these tempting doughnuts.

Beat until light one whole egg and one egg yolk and gradually add three-fourths cup of sugar, beating all the time. Mix three-fourths the teaspoon of salt, one teaspoon of grated nutmeg and two cups of flour.

Mix one half teaspoon of soda with one half cup of scalding milk. Mix the milk with the flour mixture, roll and pat out, handling as little as possible, then cut and fry in deep fat.

Be sure to read the special cooking article on this page next week.

Pneumonia Always Calls for Quick Action

Among the diseases that take needless toll of human life pneumonia leads. It strikes suddenly, with little warning. So grave is the danger it indicates that its first symptoms should invariably bring swift and vigorous action.

One of the first things to be done in any pneumonia case is to secure the services of a competent physician. But safety also demands the immediate use of

B. & M. EXTERNAL REMEDY
The Penetrating Germicide

to insure quick destruction of the pneumonia germs and the neutralizing of the deadly poisons for which they are responsible.

Externally applied, it penetrates immediately, exercises its germ-killing power in the lungs and generally brings prompt relief.

Progressive druggists can supply it. Full-size bottle \$1.25, or by mail from NATIONAL REMEDY COMPANY, P. O. Box 1755, Boston, Mass.—Adv.

"The better house paint will enable you to cut labor costs"

—The Bay States

THAT'S the big thing to remember about Bay State Liquid House Paint—it actually decreases labor costs.

There's more value for your money packed in Bay State than you'll find in any house paint you can buy.

And the word "value" means everything you want in house paint. It means more protection. It means longer wear. It means a better-looking job.

And it means economy—because it will make the finished job cost so little it really will surprise you.

Remember too, I absolutely guarantee Bay State Liquid House Paint to render satisfaction when applied according to directions.

Boston School of Cookery Tests and Approves

Miss Lucy G. Allen, director of the school, tells her experience with the Perfection Oil Stove.

MISS LUCY ALLEN, director of the Cookery, is one of six famous cooks who recently put the Perfection Stove to a rigorous, practical cooking test. Like the other five famous cooks, Miss Allen cooked by every cooking process, and gave us her opinion of the Perfection.

Uniformly Good Results
"I cooked many meals on the Perfection Stove," says Miss Allen. "The results, whether using the top of the stove, the oven, the broiler, or the toaster were uniformly good. There were several features sufficiently pronounced to recommend the stove to the most particular people.

Easy to Work on
"The Perfection is an easy stove to work on. There is no reaching across several hot plates, as there is with a gas or coal range.

"The flame never varied from the point at which it was set, whether it was low for stewing down pumpkin or high for baking beans several hours.

Clean Kettles
"There was no black deposit on the cooking utensils, even when the high, yellow tipped flame was used for broiling steak."

"The long chimneys burn every drop of oil completely before the heat reaches the utensils.

"We were so well pleased with the 1926 Perfection Stove, both as to results and operation, that after completing the test we kept it to use for auxiliary work in our classes," she concluded.

Tested and approved by the Boston School of Cookery! That means that the Perfection was used under all possible cooking conditions—for slow cooking, for fast cooking; for baking, for frying, and for broiling. In every case it was found efficient.

Six Cooks Agree
The other five famous cooks who tested the Perfection were enthusiastic, too, about the results obtained. And every day 4,500,000 women get real cooking satisfaction from their Perfections.

See these 1926 Perfections at any dealer's. All sizes from a one-burner stove at \$6.75 to a five-burner range at \$120.00. When you cook on a 1926 Perfection, you, too, will be well pleased with it.

Headless Skeleton Unearthed

The discovery Saturday of a human skeleton with the head missing buried beneath the ell of the old Daniel Merrill farm house at East Stoneham, caused much excitement in that section. The bones were carefully removed from the shallow grave and the facts reported to Edward C. Torrey, sheriff of Oxford County. Medical men have examined the bones and declare them to be a part of a human skeleton.

Charles Barker unearthed the "find" while digging under the sills for repairs on the house. He paid little attention to the first few bones but when the number increased, he worked carefully until practically the entire bony structure except the skull was secured. He notified S. A. Stearns, member of the Board of Health in that town, who summoned a physician from Waterford to examine the bones. The skeleton was taken to County Medical Examiner Dr. W. B. Raymond of South Paris and after a careful examination, was returned to Stoneham, where it rests in a box in the barn.

On Tuesday workmen under Deputy Sheriff Benjamin R. Billings unearthed a number of small bones, apparently those of a child. The skull was missing.

The circumstances have called to mind the disappearance of Mrs. Annie Patch, who during a stormy night in March 1895 dropped suddenly from sight. She left no traces for officers and hundreds of searchers who combed the farm and vicinity for days.

According to the story told then by Mrs. Daniel Merrill, Mrs. Patch was soon to become a mother, when she came to her home and she declared when she was disappeared, that she did not believe she would have been able to wander forty rods from the house. The disappearance of the woman was one of the sensations of the day in Oxford County. Posses searched the woods for some trace of her, the mill pond in the vicinity was dragged, and even clairvoyants were consulted to see if they could assist in solving the mystery.

An aged man whose well had recently been filled in was under suspicion for a time and the neighbors dug this out to the bottom in the expectation of finding the body.

Persons more or less skeptical about associating the circumstance with the mystery believe the bones may have belonged to a man who studied medicine thirty odd years ago and something of an itinerant practitioner, living in Stoneham and spending considerable time in Norway village. He is known to have possessed several skeletons for study, and they believe the remains are from his collection which he may have disposed of by burial. It has been recalled some of the anatomical subjects, were saved in half, similar to the condition of a portion of the bones found last Saturday. Some thirty odd years ago portions of a human body were found in the loft of a barn in Norway village and great excitement reigned until the mystery was cleared. This human skeleton, the loft was from this doctor's collection it is said, and the information obtained during the investigation removed suspicion of murder from a man who formerly occupied the premises.

GREENWOOD

Rowe Hill

Elton Dunham, Theodore and Clyde Dunham attended the K. of P. Lodge meeting at Bethel, Tuesday evening, June 8.

The grip victims the past week are Elton Dunham, Edgar Dunham, Vera Dunham and Murray Ring, all are out again.

Mrs. Anna Brooks is gaining in health although very slowly.

Owing to some members being sick and others very busy, the Get-togethers did not meet last week but will meet this week with Mrs. Mabel Dunham. The Sunday School held a business meeting Sunday, June 6, voted to have Children's Day, July 25, and to have a vacation in the month of August.

Gladys Cash has been working for Mrs. William Ellery for a few days.

W. E. Ring is cutting and peeling pulp on Gorman Hill for Clarence Smith of North Woodstock.

Livewood Ring is hauling fitted stove wood from W. E. Ring's to Herbert Ring's at Bryant Pond.

A heifer owned by Clyde Dunham gave birth to twin calves, June 6.

Henry Brooks of Peru visited his mother, Mrs. Anna Brooks, and his wife and little daughter, who are staying with Mrs. Brooks, over the week end.

Frank Hayes has been working for Colby Ring the past week.

Mr. and Mrs. Durand Lang of South Woodstock were at Newton Bryant's, Sunday.

Extracts from a letter received from Melrose Community, Punta Gorda, Fla.: Mr. Cummings has been night watch in the Hotel Charlotte at Punta Gorda since last December. This summer he is to stay as care-taker. Punta Gorda is on Charlotte Bay, near Peace River. There are about 1,500 inhabitants, partly colored people, some Seminoles. Indians. The land is level, some 3 ft. above high tide. There are coconuts, (called here Royal Palm), Palmetto, Water Oak, Pineapple and rubber trees. Fruits are oranges, grape fruit, tangerine, lime and lemons, strawberries, blackberries, (white in color), guava and watermelon grow there. Fruit is high, watermelons, \$1.00; strawberries, 50c; blackberries, 35; tomatoes, 15c; per lb. at present.
